

## **Kids' MusicRound® with Barbara and Friends**

### **Outdoor Fall Class Protocols**

**In-person, outdoor classes** will require some extra precautions for the protection of everyone. Please click the link and read before registering.

- Everyone will need to complete and sign a form each week about your recent travel outside of NJ. Kids' MusicRound will supply the form.
- The teacher will take the temperature of adults and children with a contact-less, forehead thermometer.
- 6' will be marked on the ground for social distancing. Please bring a blanket to lay over the marker so you can take the blanket back home with you. The blanket area is your personal space.
- Adults should always wear masks and children, too, when possible. Remember, we are singing. The teacher will be wearing a mask.
- As always, the adult needs to monitor for the child's safety in the outside area.
- Sanitizing: Each family will have a designated, sanitized family instrument bag with their name on it. It is the responsibility of each family to sanitize the instruments with a wipe provided at class or one of your choosing. Each week, the teacher will bring the labeled bags to class, so each family receives the same sanitized instruments.
- Raining? If weather does not permit us to be outdoors, we will make every effort to reschedule, but may need to move it to virtual.

Following the above protocols should make everyone feel safe participating and enjoying our outdoor music classes.

Have fun in class! We can't wait to make music with you and your little one!
